

# Isn't it Time to Organize Those Old Documents Overflowing From Your File Cabinet?

## Scan to PDF at ep>direct For the Cost of a Copy!\*

Old documents take up space, they're inconvenient to move, they deteriorate over time, there's no secure back up, and only a precious few people have access to the information.

Why not have ep>direct scan those old papers to PDF so that you can view and use them on your computer? It's the perfect way to organize and store those important accounting records, personnel records, insurance, and legal papers you currently have lounging around your office or at home!

When you have your documents scanned to PDF, you will have a safe back up copy of those papers and you can e-mail them to anyone at any time. Enjoy the convenience of finding the scanned information from your own desktop!

Business professionals – transfer your older pre-desktop manuals and instruction sheets to your web site. By placing PDF files online in your own personalized web archive, customers can find the answers they are looking for without calling customer service!

Plus, scanning to PDF is better than faxing! Once the papers are scanned in, there's no phone charges for e-mail and the quality of the paper on the receiving end is far superior to a fax copy.

**And the best part? The scans are only the cost of a copy!\***
